Alexander Orthopaedic Associates
Form Fee Agreement

Please note: The completion of informational/insurance forms represents an administrative service to our patients above and beyond the provision of medical care. Recent changes in health care have resulted in the tremendous increase in the volume of information requests to our practice. The time and effort involved in providing this detailed information results in significant costs, especially when multiplied over the large number of patients our practice serves. The refusal of insurance companies and requesting agencies to cover the costs requires us to institute a policy of charges for the completion of the forms as follows:

NO Charge:

- Workers Compensation requested Disability and Work Status forms
- Auto Insurance Carrier requests for Work Status and Treatment Plans

$15.00:

- Disabled Parking Applications

$35.00/ form:

- Credit Card deferment forms
- Private Disability Insurance Forms
- School Educational Disability or Limitation Forms

$35.00/form

- Family Medical Leave Act (FMLA) forms

$150.00- $300.00

- For completion of any dictated letter describing medical care and limitations
- For any narrative report detailing diagnosis, treatment, and future medical care including work capacity statements. Functional Capacity Evaluation testing may be necessary prior to, or in addition to the narrative report. The fee for the FCE test is determined by the facility that the testing is completed at.

I have read and understand the above. By signing I agree to comply with the Form Fee policy of AOA. Fees subject to change without notice.

CONSENT FOR TRANSFER OF BIOLOGICAL SPECIMEN

Florida law (Section 817.5655, Florida Statutes) prohibits the sale or transfer of a person's biological specimen from which DNA can be extracted to a third party without the express consent of such person.

During the course of your care at Alexander Orthopaedic Associates, it may be medically necessary to obtain a blood, urine, stool, tissue or other type of biological specimen for analysis. This analysis **will not** involve the examination of your DNA to identify the presence and composition of genes in your body. After the analysis has been performed and the sample is no longer needed, it will be stored as medical waste and then transferred to a third party for disposal in accordance with all local, state and federal requirements.

It may also be the case that a biological specimen (such as blood, urine, hair, bodily fluids, etc.) from you may be deposited on medical instruments, bedding, clothing or other objects. These objects may then be transferred to a third party for cleaning or disposal.

By signing this document, you affirmatively state that it is your intentional decision to consent to the transfer of any and all biological specimens collected by or deposited with Alexander Orthopaedic Associates to a third party as set forth above. This consent does not authorize the sale or transfer of a biological specimen for the purpose of DNA analysis.
