ALEXANDER **ORTHOPAEDIC**  
ASSOCIATES

Dedicated to providing excellent

**Orthopedic and  
Musculoskeletal Care**

# Welcome to Alexander Orthopaedic Associates

From diagnosis to treatment to rehabilitation, the best patient experience begins with patient comfort. Extensive sub-specialty training, state-of-the-art facilities and leading-edge surgical techniques are the ingredients to the best surgical outcomes possible.

In 2002, Vladimir Alexander, M.D., founded our practice because he knew utilizing cutting edge technology and new advances in orthopedic surgery, he could create a better way to recover from orthopedic injuries.

Specializing in total joint replacements and sports medicine, Dr. Alexander developed the Alexander Outpatient Advantage, which allows our patients to recover in the comfort of their own home with world-class care from our mobile recovery team.

When a patient trusts us with their health and mobility, they rest assured knowing their treatment plan will be customized to their lifestyle needs and coupled with compassionate care. Our patients' results prove this methodology works. They experience fast recoveries, restoring their health and lifestyle.

# Our Specialties

- Orthopedic Surgery
- Sports Medicine
- Arthroscopic Surgery
- Shoulder and Knee Surgery
- Joint Replacement
- Fracture Management
- Hand, Wrist and Elbow Surgery
- Foot and Ankle Surgery
- Interventional Spine Care
- Spine Surgery

# Outpatient Surgery Centers

Our state-of-the-art SMARTCARE Surgery Center is conveniently located within our Palm Harbor medical complex.

## Palm Harbor

1325 Belcher Rd, Palm Harbor, FL 34683 | (727) 855-4500

## Physical Therapy

We offer a full line of rehabilitation services for our patients for various musculoskeletal problems, including pre- and post-operative therapy, total joint and spine rehabilitation, trauma rehabilitation, as well as dedicated hand, foot, and ankle therapy.

## Magnetic Resonance Imaging (MRI)

At Alexander Orthopaedics, we have an on-site, open MRI to provide an easily accessible option, so our patients don't have to travel to another location to get the images they need for diagnosis.

## Bone Densitometry

We also offer on-site DEXA (Dual Energy X-Ray Absorptiometry) scans. These scans use an enhanced form of x-ray technology to measure bone loss. DEXA scans are commonly used to diagnose osteoporosis and can also assess a patient's risk for developing fractures.

---

## Insurance Information

We take most commercial health insurance policies, Medicare, worker's compensation, and auto insurance.

# Meet the Physicians

## Vladimir Alexander, M.D.

Dr. Vladimir Alexander is the founding partner of Alexander Orthopaedic Associates and has nearly two decades of experience in orthopedic surgery. He specializes in disorders of the shoulder, hip, and knee.

His passion for creating the best possible patient experience led him to become one of the few surgeons in the country to successfully perform outpatient total joint replacements and Birmingham Hip Resurfacing surgeries. Dr. Alexander has been serving the Tampa Bay community for over twenty years and is committed to providing the best orthopedic care available.
